

Cognitive and Neural Substrates of Communication

The Department of Communication Sciences and Disorders at the University of Iowa seeks applications for an Associate to Full Professor whose research examines the cognitive and/or neural substrates of language and communication. We are seeking a scholar with a strong program of research in communication and language in one or multiple domains (e.g., phonology, semantics, grammar, discourse), including the interaction between cognitive and communicative functions in typical individuals or those with cognitive-communication disorders such as traumatic brain injury (TBI) and dementia. Applicants with expertise in the design, implementation and dissemination of evidence-based interventions are particularly encouraged to apply.

The successful applicant will maintain an active research program and teach undergraduate and graduate courses in his/her areas of expertise. The University of Iowa offers exciting opportunities for interdisciplinary scholarship across a number of campus facilities and programs, including the Wendell Johnson Speech and Hearing Clinic, the DeLTA Center, the Cognitive Science of Language Program, the Interdisciplinary Graduate Program in Neuroscience, and the Aging Mind and Brain Initiative as well as strong collaborations with units such as Psychological and Brain Sciences, Otolaryngology, and the Iowa Neuroscience Institute. Opportunities for implementation science research with publicly or privately affiliated service providers also exist.

Education Requirements: Prospective candidates must have earned a PhD in communication sciences and disorders, cognitive psychology, cognitive neuroscience or a related field.

Required Qualifications: 1) evidence of an active and productive research program in cognition and communication; 2) an established record of external funding; 3) a record of effective teaching at the post-secondary level; and 4) evidence of service at the university or professional level.

Desired Qualifications: 1) certification/licensure in speech-language pathology; 2) demonstrated commitment to working across disciplinary boundaries; and 3) evidence of leadership in university or professional contexts commensurate with rank.

The Department and the College of Liberal Arts & Sciences are strongly committed to diversity; the strategic plans of the University and College reflect this commitment. All qualified applicants are encouraged to apply and will receive consideration for employment free from discrimination on the basis of race, creed, color, national origin, age, sex, pregnancy, sexual orientation, gender identity, genetic information, religion, associational preference, status as a qualified individual with a disability, or status as a protected veteran. The University of Iowa is an equal opportunity/affirmative action employer.

Application: Applications accepted 9/1/17- 11/30/17. Interested candidates should submit their application materials (CV, letter of application, and three letters of recommendation) at:
